

About ISS

About Integrated Software Solutions

With over 15 years of experience in providing custom software solutions to global financial services providers, healthcare providers, and software and services companies, Integrated Software Solutions, Inc. (ISS) enables our customers to provide quality service, to work more efficiently, to minimize the effects of changing technology, and to sell more effectively.

Fortune 500 companies have trusted our specialized expertise, and our reputation has earned industry accolades, including recognition on several occasions by the Wharton School of Business' Philly 100. Our standard product and service offerings, coupled with our expansive professional services, allow us to offer unmatched custom development, migration, and integration solutions that capitalize on today's leading technology.

Products

ISS' premier products offer cutting-edge solutions, with the customizability, security, scalability, and flexibility that today's businesses demand.

- **Corporate Universe** – *A complete securities accounting record-keeping system for stocks, bonds, and securities assets.*
- **ISSMoneyMarket** – *An Internet-based money market instrument issuance system that provides short-term debt processing in a flexible environment.*
- **Investor Relations Center** – *A multimedia customer interaction solution that facilitates automatic customer information retrieval and automates communication by phone, fax, pager, email, and Internet.*

Business Service Offerings

- **VoteOne** – *An industry-leading integrated solution for telephone- and Internet-based proxy voting, consent voting, and benefit enrollment.*
- **Scriptacom™** – *A division of ISS that provides cost-effective medical, legal, and business transcription solutions.*

Professional Services

Realizing that your specialized business objectives require specialized expertise, ISS offers comprehensive professional services to help you achieve your goals.

- **Business process assessment** – *ISS QuickView thoroughly measures your organization's current capabilities as compared to present and future business objectives and provides process improvement recommendations.*
- **Business process improvement** – *Custom development, migration, integration, and/or staff augmentation solutions are implemented via our expert technical team.*
